Independent Health®

Data last updated 11/20/2024

IMPORTANT THINGS TO REMEMBER

Please note: The health care providers listed here were participating with Independent Health as of the date noted in the footer located at the bottom of each page.

Independent Health makes every attempt to provide you with as accurate a listing of participating providers as possible; however, the list of participating providers can change on a daily basis. Doctors and providers who are NOT listed here may have joined the plan since the printing of this listing. Also, doctors and providers who are listed here may have discontinued their participation in the plan since the printing of this directory.

Doctors and providers may discontinue participating in the plan at any time due to relocation, retirement, death or other reasons. Therefore, the doctors and providers who are participating with Independent Health when you join may not always be participating in the plan.

USING THIS BOOK

Providers are listed alphabetically by county and by specialty. Providers who speak additional languages are also listed for your convenience. Any services to members given by providers not listed in this book will not be covered unless advanced written permission is given by Independent Health's chief medical director. If you would like to check to see if a provider who is not listed is participating with State programs or for additional information, please call our Member Services department. You can also get provider information about their education, training, certification and specialty by calling Member Services at **(716) 250-7183** or **1-833-891-9372**. Check your benefit summary or member contract prior to contacting any of the providers listed in this directory to confirm coverage.

MAKING THE RIGHT DECISION WHEN CHOOSING A PRIMARY CARE DOCTOR

Choosing a primary care doctor. Where do you begin? How do you know which one can provide the care you need? More importantly, who can provide the quality care both you and your family deserve?

At Independent Health, we want only the best care for our members. That's why our medical directors have established special requirements and guidelines to ensure doctor quality.

Throughout the year, Independent Health closely monitors and reviews all participating doctors in our network, making sure that licensing and insurance issues are up-to-date. In addition, we visit each doctor's office to get a "hands-on" appraisal on how a doctor is meeting our quality standards.

While doctors who participate with State programs are not employees of Independent Health, we think it's important to take those "extra steps" to ensure that our members are getting the medical care they need and the personal attention they deserve.

Many doctors who participate with State programs are "board-certified." This means a doctor must have completed training in an accredited, university-affiliated post-graduate residency or fellowship program, and passed exams given by the governing board of his or her specialty.

Another option to consider is obtaining information on physician disciplinary action. You may log onto the Office of Professional Medical Conduct (OPMC) website at https://www.health.ny.gov/professionals/doctors/conduct/ or call toll-free 1-800-663-6114.

Finally, throughout this directory, you will find notations that indicate whether or not a primary care doctor's office employs nurse practitioners, is not wheelchair accessible, and offers alternative language capabilities.

As you can see, there are not just one, but many factors to consider when choosing a primary care doctor. Not to mention a doctor's years of experience, medical reputation, and professional standing in the community.

If you need help choosing a primary care doctor, please feel free to call our Member Services department at **(716) 250-7183** or **1-833-891-9372**. An Independent Health representative will help you find several doctors to choose from, including those with offices in your area.

PRIMARY CARE SERVICES

- Managed care starts with selecting a primary care doctor for each member of your family. If you would like to change your primary care doctor, contact Independent Health; a service representative will help you make the change. Doctors listed with an "NAP" are primary care doctors who are not taking new patients, but will accept only pre-existing patients.
- The doctors listed in the specialty doctor section are not primary care doctors, but provide specialty care services only. Your primary care doctor must refer you to one of these doctors to ensure in-network coverage.
- Female members may choose both an obstetrician/gynecologist (OB/GYN) and a primary care doctor. Some OB/GYNs are also primary care doctors and are listed with a "PCP" at the bottom of their listing. Females can pick an OB/GYN with a "PCP" who can meet most of their health care needs or they may choose to pick a primary care doctor and an OB/GYN who has an "SPC" at the bottom of their listing. You do not need a referral for OB/GYN care.

REFERRALS

Independent Health has a policy which eliminates the use of paper referral forms - freeing you from having to bring a referral form to a specialty doctor. All referrals will be transmitted electronically by your primary care doctor and specialist(s). A letter will be sent directly to your home as proof of the referral, providing you with referral information for your records. This letter is for your records only and does NOT have to be given to the specialty doctor.

Please note: No referral is needed for visits to participating allergists, dermatologists, ophthalmologists or optometrists. As always, members don't need a referral to see their OB/GYN.

You can see an ophthalmologist or optometrist for an eye-related medical reason such as an injury or disease. However, only people who have MediSource or Child Health Plus or other coverage that includes a vision benefit can go to an ophthalmologist or optometrist for routine refractory eye examinations.

BOARD CERTIFICATION

A doctor who is board certified has passed certain requirements established by the governing board of that specialty. Requirements that a doctor must meet to be board certified, generally include the passing of written and/or oral examinations and a specific amount of training. Once a doctor has met these minimum requirements, he or she is then board certified - verifying the doctor's knowledge of a specific medical field. Board certification, which is listed with a "CER" symbol following the doctor's listed specialty, is just one of the many ways that you can be assured of a doctor's training and medical knowledge.

Board certification was developed, and is awarded by the American Board of Medical Specialties (ABMS) or the American Osteopathic Association (AOA).[1]

1. ABMS Board Certified Specialists as provided by TMP Medical Listings to CertiFACTS, an official ABMS Display Agent.

PROVIDER STATUS

This directory includes most State program doctors and practitioners. You may want to check on a doctor who you would like to see or someone listed in this directory to make sure they are still accepting State programs or new patients. You can find out by calling Member Services at **(716) 250-7183** or **1-833-891-9372** or by calling and asking the doctor's office.

BEHAVIORAL HEALTH CARE

Independent Health has partnered with Beacon Health Options to provide you with the best Behavioral Health care access. For a comprehensive list of participating Behavioral Health providers and hospitals, you can visit independenthealth.com/findadoc or search Beacon's online Provider directory at https://www.beaconhealthoptions.com/find-a-provider/ Plan name=Independent Health. You can also call our Member Services department at **(716) 250-7183** or **1-833-891-9372**.

ANONYMOUS HIV TESTING

Anonymous HIV testing and counseling is also available to Independent Health members. Should you decide to seek these services, you can do so without prior approval from Independent Health. You should note that you do not have to give your name or any other information that would identify who you are. To locate the Anonymous Test Site nearest you, please call the New York State Department of Health at 1-800-962-5064 for more information.

TREATMENT OF OPIOID ADDICTION (BUP)

The maximum number of patients a physician may treat with buprenorphine is limited by law; therefore, some physicians listed in this directory may not be accepting new patients at this time.

ADDRESSING THE SPECIAL NEEDS OF OUR MEMBERS

We have developed a number of different ways to assist non-English speaking members who wish to access our services or file a complaint. All Independent Health Member Services representatives can assist our non-English speaking members through Independent Health's use of "Telephone Interpreters." This service allows Independent Health employees access to interpreters for as many as 170 different languages within one minute of receipt of the member's telephone call.

If a member needs assistance in selecting a doctor fluent in a specific language, our Member Services department can also assist members with this. Members may also obtain names of physicians who speak another language by calling our Member Services department at **(716) 250-7183** or **1-833-891-9372**. Para traducciones al Español, llame: 1-800-501-3439.

Speech And/Or Hearing Impaired Members

Our speech and/or hearing impaired members can contact the Member Services department using TDD at 711.

Visually Impaired Members

Member handbooks are available in large print for easier reading. Additionally, a Member Services representative will be happy to read the handbook to a member, if needed.

TELEPHONE NUMBERS

Our Member Services department can be reached Monday through Friday, 8 a.m. to 8 p.m. at **(716) 250-7183** or **1-833-891-9372**. You may also contact the Member Services department at the following address:

Independent Health
511 Farber Lakes Drive
Buffalo, NY 14221
Attn: Member Services

DOCTOR SPECIALTIES

Listed below are explanations of some doctor specialties you will find listed in this directory.

Allergist – This doctor specializes in the treatment of allergies.

Allergy – Allergists/immunologists are trained in the prevention, diagnosis, and treatment of immune system problems such as allergies, asthma, inherited immunodeficiency diseases, and autoimmune diseases.

Cardiologist – This doctor specializes in the treatment of diseases of the heart.

Dermatologist – This doctor specializes in the treatment of skin conditions and disorders.

DO – Doctor of Osteopathic Medicine.

Endocrinologist – This doctor specializes in the treatment of glandular disorders.

Family Practitioner – This doctor has completed a residency in family practice and treats patients of all ages.

Gastroenterologist – This doctor specializes in the treatment of diseases of the stomach and intestines.

General Practitioner – This doctor treats patients of all ages.

Hematologist – This doctor specializes in the treatment of abnormal blood conditions.

Internist – This doctor has completed a residency in internal medicine and generally treats adult patients.

MD – Doctor of Medicine - Allopathic Doctor.

Nephrologist – This doctor specializes in the treatment of various kidney disorders.

Neurologist – This doctor specializes in the treatment of the nervous system and its disorders.

Obstetrician/Gynecologist – This doctor specializes in the treatment and care of conditions involving the female reproductive system.

Oncologist – This doctor specializes in the treatment of cancer.

Ophthalmologist – This doctor specializes in the treatment of diseases of the eye.

Orthopedic Surgeon – This doctor specializes in the treatment of skeletal system disorders.

Otolaryngologist/ENT – This doctor specializes in disorders of ears, nose and throat.

Pain Management – Pain medicine is the multidisciplinary subspecialty that specializes in the management of patients suffering from acute or chronic pain, or pain in patients requiring palliative care.

Pediatrician – This doctor has completed a residency in the care of babies and children and the treatment of their diseases.

Physical Medicine & Rehabilitation – (PM&R), also referred to as physiatry or rehabilitation medicine, is the medical specialty concerned with evaluating, diagnosing, and treating patients with physical disabilities.

Pulmonologist – This doctor specializes in the treatment of lung disorders.

Rheumatologist – This doctor specializes in the treatment of arthritis.

Specialist – A doctor may choose to obtain further education and training after the completion of medical school in a particular area of medicine. This training period is called a residency. An example of a residency would be family medicine. Upon completion of the residency, the physician is referred to as a family doctor. This type of doctor generally treats adult patients as well as children.

Sub-specialist – After the completion of a residency, further training may be obtained. This training is called a fellowship. An internist may specifically pursue the study of the heart and cardiovascular system. Cardiology is a sub-specialty of internal medicine. After completing the program, the doctor is referred to as a cardiologist.

Urologist – This doctor specializes in the treatment of the urinary tract.
